

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 13 June —, 1884.

Hon. A. Loudon Snowden

Superintendent

Sir,

I seem to me that it would tend to avoid loss of sweep, to conduct the surplus from the overflow well in the sweep cellar into the sewer with its settling well on the N. W. corner of the Mint, and I therefore recommend that arrangements be made to effect the same

Respectfully yours

J. C. Booth
